This game was overhyped, but when you pick it up for \$10 (one third of the price) it's hard to complain. It's got good visuals and good controls, so it's easy enough to show off to friends and also can hold my attention as a VR owner. Thumbs up for sure, but wait for a sale to buy.. This game is indeed what it says it is. Uber hardcore, old-school, turn-based squad tactics. And when I say hardcore, I really mean hardcore. If you consider yourself a casual gamer, don't even think about it. Old gamers who grew up playing games like this will love it.. Its a tough review as the full game will not be released for 24-48 hours from release date. There are a handful of missions (Single Targets), where you are given a clue about the individual and you either find and kill them, or fail and retry. Seems like it could be enjoyable, but that will depend on what the full release looks like. All in all, the game shows promise.

1V25V2018

I am now changing my review to not recommended, as they have yet to release any additional content and we are well past the 48 hours max time stated since day one of the release. Booooooo.

2V1V2018

My negative review was based on content in the first few days. Since its full release I have to say it's been better. I sometimes seem to spawn under the car instead of in it, but that point is moot. The game is enjoyable, worth a look at in my book.. servers offline XD. Overall a good game, feels somewhat harder, than AoF2, due to absence of optional fights

Can't normally play it though, game simply never loads third battle in "Rise of The Necromancer" company and 13 battle in "The tale of Sir Edward" company.

Also, game is quite overpriced for it's poor stability (at least on windows)

Better take it with a good discount so you won't be much dissapointed when game will refuse to start/load. This is an amazing DLC, and for youre first real DLC this is a great job. I hope to see more like this in the future.

This gives you more Gameplay options, like boosters and some new parts to make.

The only negativ think is the release of it but i think it's okay now. :). I may be a loser in Real life (my wife said that)

But i am the KING of my Dreams!

<https://www.youtube.com/watch?v=kq0ML3PGmhU>. SUPERB!>>>Remember Capcom's Commando 1985???If you were lucky enough to have played that,or it's PC Vconsole conversion then like me i think youll absolutely love this game,and even if you havnt heard of them because you wernt even born then dont worry,this is good enough to attract new players to this "style" of Gameplay.I know this isnt made by Capcom,still the same idea you will spot immediately.@DEV>Id love to see say WW2 DLC for this.Plenty of Nazi's to kill etc and Nades to lob+that classic theme tune.this has the same frenetic frenzied paced gameplay as an old classic.i wasnt sure when i looked at it,is it childish?No it isnt.Im middle aged:) and for me this IS My "Best Buy"of Steam sale Nov2016.Edit>another idea for DLC i would like to see The theme tune from 1985 Commando too id pay for that in a jiffy!...:P

Oh and theres a "bit"of Blood in it!... This DLC is good but we need to fix the bugs in this game first and each Nation should be unique.

I was all about playing all the Sherlock Holmes games, but this one is seriously taxing my patience. I actually saw the logic of the puzzles, even the safe combination one everyone seems to hate. I like that it's actually investigative, with testimony a major component of the overall puzzles. I was enjoying all of it... until the stealth/timed stuff started. I was frustrated as hell with the first one, to the point of using a video walkthrough, which I usually avoid like the plague. I got past that, and there was a second one. I got through that.

Then the forest. Where there are a dozen touchy, camera-angle-changing screen changes, a short, hard timer, and places where Sherlock WILL. NOT. F-ING. MOVE.

Despite liking the story, despite liking the puzzles, I may not pick this game up again, and I really can't recommend it to adventure gamers of any but the most stubborn, old-school stripe. When a point-and-click adventure game has timed movement puzzles that combine Nintendo Hard game mechanics with control schemes that would be embarrassing in a free Flash game... if you're into seeing all the Sherlock Holmes games, just play this one until you get to the stupid timed BS, then watch Let's Plays on YouTube instead of subjecting yourself to the bad choices of the developers.. I didnt expect much when i saw this game. I mostly bought it due to the "kongregate" title being on it and i adore their games. But holy heck this game is good fun :D, i seriously hope we see more content added.. The update definitely helped. I'm still having issues with accidentally placing buildings places when I'm clicking on another menu (like bonds). Also, I have not seen this Army Base option. How do you access it?. This game is about being a girl and having emotions and♥♥♥♥♥♥ lolololololololol. If William Faulkner had been able to make video games, they would probably feel a lot like Winter Voices. Not without several technical difficulties, this is still one of the best games on Steam. It might even be one of the most interesting games ever made. You should buy it.. Too much Light
Too much Walking

Game blows

10V10. nope reallly by all love..this is for 1-8 yeahrsoldpersons,childs...but really dont is something for older peopel...is horrible...hehe i mean ..nowords..every 1 min shes hungry,,there is no really something toof arm...just same stuff:D hehe ..oh god..refund.RIP.. (\u0361\u00b0 \u035c\u0296 \u0361\u00b0). Really the best American Diesel in the whole DLC library, because it's the only one with actual operational features for start up and running, along with operational physics and limitations not found in any other locos.

Simply the best for diesel driving that you can get here.
